# **Position description**

Position title:	Process Engineer
Group:	Operations
Reports to:	Group Manager Operations
Reports:	Direct: 0 Indirect: 0
Status:	Full-time (4 Year Term Contract)
On call roster	☐ Yes 🖾 No
Salary grade:	15
Position code and WAP:	PENG/326
Location:	218-232 Molesworth Street, Lismore

#### **Council overview**

Rous County Council has three core functions; bulk water supply, weed biosecurity and flood mitigation. Council delivers these functions to the constituent councils of Ballina, Byron, Lismore and Richmond Valley.

#### Primary purpose of the position

To support and provide technical advice in water treatment processes, dam operations and distribution to the Operations and Planning and Delivery Groups to ensure ongoing provision of clean safe drinking water and delivery of fit for purpose capital works infrastructure as part of the Operations group and Council's Future Water Program.

#### Key accountabilities

Key accountabilities of this position include, but are not limited to, the following:

- Contribute to and provide expert technical advice to support the organisation's operational commitments and ongoing capital works programs including Councils Future Water Program to ensure on ground operational teams are supported, and delivery of appropriate and fit for purpose engineering solutions are achieved.
- Work with the Dams and Treatment Engineering Manager to ensure relevant guidelines and legislation are met in the design, operation, management and maintenance of Council's water treatment, source and distribution assets.
- Investigate faults, solve complex process issues and provide process advice and recommendations to management, operators and stakeholders across the organisation.
- Contribute to the ongoing maintenance of councils Drinking Water Management Systems (DWMS).
- Assist the Dams and Treatment Engineering Manager and Technical Team Leader in the management of Council's PLC, RTU & SCADA networks and systems.
- Prepare specifications, tenders and manage contracts relating to operational and minor capital works programs.
- Contribute to the preparation of technical reports and business cases for future plant augmentations and upgrades.
- Contribute to Future Water Program ground water management projects including, bore licensing matters, physical and chemical testing programs, EPOCH & floristic surveys.
- Maintain strong and open communication with the Dams and Treatment Engineering Manager and the Future Water Project Team to ensure achievement of operational and capital delivery outcomes.

Respect

# Key challenges

 Prioritising a high volume and diverse workload working with cross functional teams (Operations and Planning & Delivery), being effective at both a strategic and operational level, while maintaining a high customer service focus.

# Work Health and Safety responsibilities

- Ensure you are able to competently and safely perform any work you undertake
- Ensure compliance with the WHS policy, WHS management system and all Council safe work practices and procedures.
- Take reasonable care for the health and safety of yourself and others who are at the place of work.
- Cooperate with Council or others so far as necessary to enable compliance with any requirements under WHS legislation.
- Report to your supervisor unsafe conditions, dangerous occurrences or injuries.
- Communicate and/or consult with other employees, supervisors, managers and the HS Committee.

_	Who	Why
	Manager	<ul> <li>Receive guidance and provide regular updates and reports on assigned tasks and provide advice on escalating issues.</li> <li>Provide advice to guide the development and implementation of relevant works programs.</li> </ul>
		<ul> <li>Identify, discuss and plan for key issues and negotiate successful stakeholder outcomes.</li> </ul>
	Leadership team and key staff	• Build capacity and capability at Council to ascertain pertinent, accurate and relevant information to inform business decisions with regards to operational matters and delivery of fit for purpose assets.
		<ul> <li>Share and transfer specialist knowledge, expertise and skills with operational teams, colleagues and key stakeholders.</li> </ul>
'nal		Identify and provide advice on new or changing requirements.
Internal	Team members	<ul> <li>Participate in discussions regarding key aspects of operations, planning, development.</li> <li>Receive guidance and advice from team members based on their expertise and experience.</li> </ul>
		<ul> <li>Provide advice and direction to operations and other team members as required to maximise efficiency and effectiveness.</li> </ul>
	Internal stakeholders	Develop and maintain effective working relationships and open channels of communication to liaise, consult, engage and/or participate in planning, design and customer service matters.
		Receive guidance and advice from internal stakeholders based on their expertise and experience.
		Provide advice and direction to internal stakeholders to maximise efficiency and effectiveness.

## Key relationships

	Who	Why
rnal	Key external stakeholders	Develop and maintain professional networks with other practitioners and government/statutory authorities, in relevant fields to maintain awareness of industry trends and issues affecting Council's interests.
Exter		Ensure compliance with agreed customer service standards for the development, maintenance and renewal of infrastructure.

## Acceptance of the position

I agree to the requirements of the above Position description as at:

(Employee name)

(Signature)

(Date)

## Selection criteria

- Bachelor's Degree in science, Engineering OR demonstrated equivalent qualifications including relevant extensive experience.
- Significant demonstrated experience in the operation/optimisation of water treatment plant facilities (6-10yrs experience).
- Strong contract management, project management, planning, organisational and report writing skills.
- Highly developed research, analytical and problem-solving skills including an ability to develop and implement innovative solutions.
- Knowledge and experience in the use of word processing packages, database, spreadsheet, and e-mail applications.
- Ability to communicate effectively both verbally and in writing with staff including senior managers.
- Demonstrated ability to manage concurrent projects with competing deadlines.
- Knowledge and experience in the implementation and usage of Maintenance Management Systems.
   <u>Licences/tickets:</u>
  - Driver Licence Class C
  - Construction Induction Card (or willingness to obtain)
  - Confined Spaces Certification (or willingness to obtain)
